Shanxi province, with a history of more than 5000 years, is the cradle of the splendid Chinese civilizations, boasting its magnificent mountains and rivers, abundant in natural resources, profound culture and diligent people. The number of the historical and cultural sites ranks top nationwide.

About Shanxi Province

The City of Taiyuan

Birthplace of the Chinese Civilization

Taiyuan City is the capital of Shanxi province with many historical and cultural sites scattering around. For instance, the ancient city of Pingyao--one of the world cultural heritages, Yungang grotto, Wutai mountains-holy land of Buddhism, and so on. Nowadays, it is the center of politics, finance, culture and international exchanges of Shanxi province. Taiyuan city is also an important base for new products and boasts a sophisticated manufacturing industry.

Well Connected and Easy to Get Around

Taiyuan is located in the central part of China near Beijing, Tianjin, and Xi'an. It takes three hours by train and only fifty minutes by plane to go to Beijing. The modern spatial transport network has been formed by the airline, railway and highway, which makes traveling extremely convenient for tourists here.

Introduction of Shanxi University

One of the First Three National Universities Established in China
Over 30,000 Students on Campus
International Students from 57 Countries around the Global

S

hanxi University, found in 1902, is a university co-developed by the State Ministry of Education and the People's Government of Shanxi Province. Shanxi university has inherited the glorious tradition of "Knowing the East and the West; seeking goodness and truth; valuing virtue and talents; strengthening oneself and serving the country" and promoted the school spirit of "being diligent, strict, honest and creative".

The campus covers 174 hectares, with 1,100,000 square meters of office and classroom space, and has two parts: a north part characterized by an elegant, traditional design, and a southern one with stylish modern buildings. The university covers many disciplines and 12 academic fields, with 90 undergraduate specialties and 17 undergraduate double-majors. There are 14 post-doc research sites, 15 PhD disciplines, 37 master's degree disciplines, and 13 engineering master's degree disciplines.

The university has key State-level laboratories, Education Ministry laboratories, Education Ministry humanities and social sciences research bases, and an Education Ministry approved engineering research center, which provide the university a solid academic and scientific research foundation. It also in charge of many nation's 973 Projects; 863 Projects, and vital projects organized by the National Natural Science Foundation, as well as the Social Science Foundation. Sixteen of the project results have won national awards, including Natural Science award; Technological Innovation award; national Scientific and Technological Progress award; Outstanding Achievement in the Humanities award from the Education Ministry, a Social Sciences award for Chinese Higher Education Institutions, and an Education Ministry Natural Science award.

Our Faculties

Shanxi University is staffed by high-quality academic lecturers and has attained remarkable achievements in cultivating skills. At present, Shanxi University has 2,026 full-time teachers, among whom 1,194 have obtained advanced academic titles. There are professional lectures from Chinese Academy of Sciences, national outstanding professional and technical talents, national model teachers, leading teachers and experts in our university.

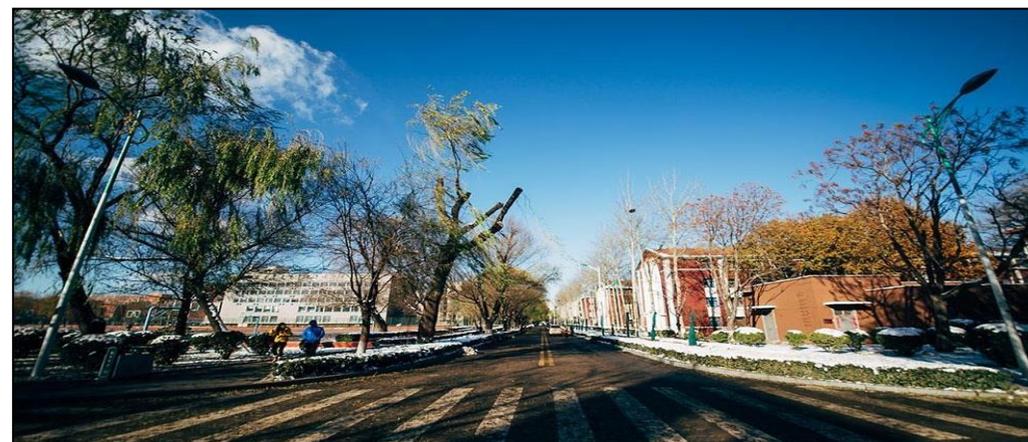

International Exchanges

The university has increasingly enlarged its international exchanges. It has established intercollegiate relationships with over 50 universities and institutions from the United States, Japan, South Korea, the United Kingdom, France, Germany, Canada and other countries. In addition, in November 2009, Shanxi University collaborated with the Pfeiffer University of the United States and set up a Confucius Institute. The establishment of the Confucius Institute has provided more opportunities for international students to study in China.

Campus Security

The safety of students and faculties is an important aspect in our university. We have therefore funded a comprehensive upgrade of the facilities on the campus to ensure safety. We have highly trained security guards patrolling our campus 24 hours a day and 365 days a year. Our aim is to guarantee everyone's safety and comfort day and night.

Life in Shanxi University

You will experience our study environment which is full of vigor, energy and incentives. Many students' communities are anxiously waiting to welcome you and introduce you to our interesting activities. We're sure you will enjoy university life on campus.

Flexible Admission

If your Chinese proficiency failed to reach admission requirements of undergraduate and graduate school in Shanxi University, you can first study Chinese language in the School of International Education and Exchange, where offers special preparatory classes for international students with different Chinese levels. Professional and experienced Chinese teachers will help you master Chinese language as soon as possible. The faculty will assist you to overcome all your language problems.

Study at Shanxi University

Programs for International Students

- Degree-granting Programs: undergraduate, master's and doctorate degree
- Non-degree granting Programs (Short-term & long-term): Chinese Language and Culture Study
- Pre-university Programs: HSK Test Training

Undergraduate Programs: Students are required to complete the curriculum between 4-6 years and fulfill the designated number of credits. Successful graduates will receive a graduation certificate along with the bachelor's degree, according to the regulation of the Degree Committee.

Master's Programs: Students are required to complete the curriculum between 2-3 years, fulfill the designated number of credits, complete the master's thesis and defend it in front of a panel of experts. Successful graduates will receive a graduation certificate along with the master's degree, according to the regulation of the Degree Committee.

Doctorate Programs: Students are required to complete the curriculum between 4-6 years (in normal circumstances), fulfill the designated number of credits, conduct research, complete the doctoral thesis and defend it in front of a panel of experts. Successful graduates will receive a graduation certificate with the doctoral degree, according to the regulation of the Degree Committee.

Non-degree Programs: Students are required to master basic Chinese vocabulary and grammar, to acquire the rudimentary ability of listening, speaking, reading and writing; to possess Chinese and cross-culture communication ability after a three-year systematic study; to meet the general requirements of daily life, study and socialization. Successful graduates will receive a graduation certificate granted by the School of International Education and Exchange of Shanxi University. The faculty is staffed with experienced teachers who have a high level of Chinese-teaching ability and decades of teaching experience. We guarantee that the pass rate of New HSK Exams will be 90 percent even for those students who know little about Chinese language.

Pre-University Programs: The option is available for those who want to complete undergraduate, master's or doctorate programs in colleges and universities. However, in terms of Chinese language proficiency and cross-cultural communication, failing to meet the basic standard influences students' opportunity to be accepted by colleges and universities. The curriculum should be completed in 1-2 years. This program mostly focuses on the new HSK training, levels 4 through 6.

Application Prerequisites

Applicants must be non-Chinese citizens in good health, with valid passport, above the age of 18, and should abide by Chinese laws as well as the regulations of Shanxi University.

Undergraduate Programs: Applicants are required to have received a high school graduation certificate; to have passed the new HSK level 4 Test if applied Chinese taught program.

Master's Programs: Applicants are required to have attained a bachelor's degree; to have passed the new HSK level 5 Test if applied Chinese taught program.

Doctorate Programs: Applicants are required to have attained a master's degree; to have passed the new HSK level 5 Test if applied Chinese taught program.

Majors for International Students

Majors taught in Chinese (for students passed HSK Level 4):

All majors in the University

Majors taught in English (2018 autumn):

Computer Science & Application.

Please visit <http://siee.sxu.edu.cn/> for more details about the departments and majors available for international students.

Scholarships

- **University Scholarship Type A** for students whose HSK scores rank Top 10% among all applicants'.

The scholarship covers all tuition and the accommodation fee, and provides an amount of living allowance monthly. Applicants need to attend an interview conducted by the University at the beginning of the semester. This scholarship will be awarded every year after annual assessment of your performance.

*Living Allowance Standards 2018:

Undergraduate Programs 7500CNY/Yr.

Master's Programs 15000CNY/Yr.

Doctorate Programs 20000CNY/Yr.

- **University Scholarship Type B** for students whose HSK scores rank Top 30% among all applicants'.

The scholarship covers all tuition and the accommodation fee. Applicants need to attend an interview conducted by the University at the beginning of the semester. This scholarship will be awarded every year after annual assessment of your performance.

- **2019 Short-term Program Scholarship** for students study in any of these six majors: Physics, Philosophy, Chemistry, Physical Education, Environment and Resources, and Computer Science & Application for three-month in 2019.

The scholarship covers the accommodation, and provides 3000CNY of monthly living allowance to each student. There is no tuition fee or application fee for short-term programs. This scholarship is only available in 2019.

- **2019 New Students Scholarship** for English taught program. This scholarship covers most of your tuition and the accommodation. Students will need to pay off the rest of the tuition. This scholarship is issued at the first year to support students' study here.

Registration Period

March and September of each year (as specified in the Certificate of Admission)

The following documents should be presented to the International Students Office of Shanxi University when registering: a. Certificate of Admission; b. Application Form (JW202); c. Original Passport; d. Three passport sized photos.

Accommodation Condition

Life on campus is very convenient. Campus includes hospital, post office, bank, supermarket, barbershop and ATM nearby. The school dining hall provides different flavored foods, such as fast food, local-featured food, baked goods and Muslim food. The physical education facilities are also well-equipped; there are playgrounds for basketball, volleyball, tennis and football. In the school gymnasium, badminton, table tennis and fitness centers are available to use.

Accommodations provide you with internet access, colored TV, telephone, air conditioner, restroom, bathroom, shared kitchen, laundry facilities and sports room, etc.

Medical Insurance

Shanxi University's regulations require that all international students must be medically insured throughout their entire planned period of study. Students are required to purchase the Comprehensive Insurance Plan of Foreign Students provided by Ping An Insurance Company on the day of registration, which has been recognized and recommended by the Chinese Ministry of Education. Students who do not have valid medical insurance are not allowed to register.

Visa Information

Students admitted to Shanxi University may apply for their visa at the Chinese Embassy/Consulate in their country with their Certificate of Admission and JW202 form (or Form V.2013 for X2-Visa).

International students who will study in China for over 6 months are required to obtain X1-Visa, which will only be valid for 30 days after their arrival in China. They must go to the International Students Office and apply for a Residence Permit within 30 days in order to obtain legal status in China.
